OBJECTIVE

Entry-level Java Backend Developer currently pursuing MCA, with strong hands-on experience in Java, Spring Boot, RESTful APIs, PostgreSQL, and ReactJS (Basic). Seeking an opportunity to contribute to real-world backend applications while continuously enhancing technical and problem-solving skills.

EDUCATION

Master of Computer Application (MCA) | 2024 – 2026 - University of Mumbai

Swayam Siddhi Mitra Sangh's College of Management & Research, Thane

CGPA: 6.60 (Till 3rd Sem) | Sem I: 7.75 | Sem II: 7.76 | Sem III: 6.61

Bachelor of Computer Application (BCA) | 2021 – 2024 - SRTM University, Nanded

CGPA: 8.56

HSC (64.77%) | SSC (62.80%) Maharashtra State Board – Nanded

TECHNICAL SKILLS

Java: Core Java, OOP, Collections Framework, Exception Handling, Multithreading

Frameworks: Spring Framework, Spring Boot, Spring Data JPA

Frontend: ReactJS (Basic), HTML, CSS, JS

Database: PostgreSQL

Concepts: JDBC, RESTful API Development

Tools: STS, Eclipse, VS code, IntelliJ IDEA, Postman, GitHub

PROJECTS

RD Management System | [GitHub](#)

- Developed a full-stack Recurring Deposit system using Spring Boot and React (Vite)
- Implemented role-based user and admin authentication
- Designed APIs for RD creation, instalments, loans, and maturity handling
- Built admin approval flows for EMI, loan, maturity, and pre-maturity closures
- Enabled passbook and instalment history tracking

Full-Stack Expense Manager | [GitHub](#)

- Built a full-stack expense tracking system using Spring Boot and React (Vite)
- Implemented secure user authentication and transaction-based workflows
- Designed RESTful APIs for credit, debit, update, and delete operations
- Integrated PostgreSQL database using Spring Data JPA
- Enabled transaction history export as PDF and Excel reports

Key Features: User login, dashboard with balance, credit/debit transactions, transaction history, data export

Full-Stack Shopping Application (Amazon-Inspired) | [GitHub](#)

- Built RESTful APIs for user, product, cart, and order management
- Implemented layered architecture with Spring Boot & Spring Data JPA
- Designed relational database schema and role-based access
- Integrated ReactJS frontend with Spring Boot backend

Key Features: Login, product listing, add-to-cart, mock checkout, admin inventory

CERTIFICATIONS

Java Full Stack Development - Coding Seekho (Ongoing)

Java Programming - NPTEL (Swayam)

EXTRA-CURRICULAR ACTIVITIES

Hosted the college Fresher's Party as lead anchor, engaging an audience of 100+ students

Participated in a college Ramp Walk competition, performing confidently before 1000+ attendees
